

Legend High Performance – The Performance of the Season

Windsor's new High Performance products earn a standing ovation from homeowners everywhere. That's because they are specially-engineered to rise to the occasion, even when water levels or temperatures are on the rise as well. No matter what the season, High Performance windows and doors are always an *Excellent Choice*.

HIGH PERFORMANCE WINDOWS & DOORS

- Innovative design features such as deep sill stop and reinforced stress points guard against water and wind damage.
- Special warm-edge characteristics reduce condensation.

LEGEND HIGH PERFORMANCE DP RATED

LEGEND DOUBLE HUNG

FEATURES/BENEFITS

- Highly engineered, high-endurance material never rots, warps, cracks, sticks or swells.
- UV protectors and impact modifiers incorporated into cellular PVC material enhance durability.
- Finely crafted details, like sloped sill with sill nosing, offer traditional beauty and solid density of real wood. Legend units offer the traditional appearance of a beaded exterior stop.
- Solid construction of cellular PVC carries 25-year guarantee.
- Energy efficient double hung balance allows top and bottom sashes to tilt for easy cleaning.
- Easy installation with nails or screws.
- No-Nail™ brickmold option allows installation through structural nail fin, not brickmold; no more nail holes to fill.
- Approved for many historic renovations.

SIZES

Available in hundreds of standard sizes and numerous custom sizes.

GLAZING

- Glazed with beaded silicone sealant.
- All insulated dual pane glass.

PERFORMANCE RATINGS

For current performance ratings, please see our website at www.windsorwindows.com.

CERTIFICATION

Performance rated to DP 50 overall — structural rating exceeds DP 50. Florida Building Commission approved; exception Dade-Broward small missile. Visit www.floridabuilding.org for more information; including section details and installation.

High Performance unit requires higher inside sill stop.
